

## Environmental labelling of packaging D. Lgs n. 116/2020

From 2023, the mandatory environmental labelling of packaging and Graf Synergy has adapted to this obligation introduced by Legislative Decree 116 of 3 September 2020 implementing the European Union Directive 2018/851 on waste and the EU Directive 2018/852 on packaging and packaging waste.

Legislative Decree no. 116 establishes the obligation for manufacturers to indicate the nature of packaging materials on all types of packaging (primary, secondary and tertiary) for identification and classification purposes, in accordance with Commission Decision 97/129/EC.

Typology		Material	Classification
	Bags	Polyethylene terephthalate	PET1 
	White bags	High density polyethylene	HDPE 2 
	Bottles	Polyvinyl chloride	PVC 3 
	Stretch film, bubble wrap, maritime film.	Low density polyethylene	LDPE 4 
	Packaging strap	Polypropylene	PP 5 
	Filler material	Polystyrene	PS 6 
	Corrugated cardboard	Cardboard	PAP20 
	Non-corrugated cardboard	Cardboard	PAP21 
	Paper	Paper	PAP22 
	Wooden box	Wood	FOR51 
	Wooden box HT	Wood	FOR51 
	Pallet	Wood	FOR50
